DETAILED ACTION

Information Disclosure Statement

1. The information disclosure statement (IDS) submitted on 2/28/02 is acknowledged and considered.

Specification

2. The abstract of the disclosure is objected to because the language should be clear and concise and should not repeat information given in the title. It should avoid using phrases which can be implied, such as, "The disclosure concerns," "The disclosure defined by this invention," "The disclosure describes," etc. The phrase "the present invention provides" should be removed.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1-3, 5,6,8, and 12 are rejected under 35 U.S.C. 102(b) as being anticipated by Goodwin (4,290,201). Goodwin discloses a sheathed scalped comprising: a handle (26), a blade (14), and a sheath (10) as claimed. Note: The introductory statement of intended use and all other functional statements have been carefully considered but are deemed not to impose any structural limitations on the claims distinguishable over the Goodwin's device which is capable of being used as claimed if one desires to do so.

Allowable Subject Matter

5. Claims 14-25 are allowed. Claims 4,7,9-11 and 13 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
